

Provide support to Local and Church Institutions

Organization Name:	Latin Scouts Group, Aboud	Project. No:	J2445
Proposal Subject:	Rehabilitation of the sport playground		
Organization Profile:	No. of beneficiaries 400 youth & children	Total Request	€4,230.00

The small Palestinian Christian village of Aboud is located near Ramallah and is one of the oldest villages in Palestine, where the population exceeds 2,500 people. The Latin Patriarchate School and its Monastery were built in 1910 for the community of Aboud and the surrounding Palestinian villages. Located inside the monastery is the Latin Patriarchate's Scout Troop where youth participate in scout activities as well as sports, cultural and spiritual activities. The compound continues to offer religious, cultural and social programs for the Christians of the village and surrounding villages.

Project Description

Few sports facilities are available for the children and youth of Aboud village, often resorting to the Latin Scouts Troop premise to safely play sports. Aboud village is an isolated village due to its location in the West Bank. It receives no subsidies from the government towards public green spaces like parks and playgrounds and thus, lacks proper sports facilities and modern playgrounds in the village. Accordingly, the Latin Patriarchate School and Monastery where the scout troop is located, has strived to provide a multi-purpose sport playground (basketball, football and volleyball) for students, scout members and other youth of the community. After one year of hard work and collective efforts by the school, the scout's troop and local community, funds were raised to rehabilitate the old playground; yet funds are still needed to install new sports facilities. A total of 4,230 Euros is required from KHS-Holland to install new football goals, basketball backboards, a volleyball net and training materials like footballs, basketballs, vollyballs and cones. The multipurpose playground will serve 400 youth – including students, scouts and other youth from Aboud.
