The Family's Need: Bathroom Restoration works.

The bathroom is very old and leaking water on the floor and the tiles are in bad condition.

Family Social Story:

A mid aged family with five children, 3 daughters and 2 sons. The father used to work as an employee in a bank but due to health problems and an open-heart surgery he was obliged to stay home. The mother is a housekeeper. One of their sons has psychological problems, and one of their daughters was born with birth defects and despite of her strong will and finishing her university as social worker she was not able to find a job. The two other daughters are still in university. The oldest son is the only one who works, and he is the only one who supports the family.

The total estimate amount needed is 3,800 Euros.
